

3 READING NOOK NECESSITIES

Reading a good book becomes a delightful experience with the perfect spot to curl up in. Here are three things you need to create an inviting reading nook.

SEATING: Plush seating is a must. While a built-in window seat is ideal, an upholstered bench, a daybed or a recliner works just as well.

STORAGE: Stash books and blankets under a lidded ottoman or bench seat, and display book collections on wall shelves to keep the area neat.

LIGHTING: Set your nook near a window for natural lighting (and a nice view), and add a downlight wall sconce or table lamp for task lighting. *AW*
